To Whom It May Concern,

I am writing this letter to highly recommend G&G Enterprises Construction Corp (G&G) for any construction projects you may have. As the Construction Manager-at-Risk overseeing the recently completed \$16.3MM Parnell Elementary renovation and addition, as well as various other projects for Jasper ISD's Bond Project, G&G consistently demonstrated exemplary performance in all key areas crucial to a project's success.

Communication is paramount in any construction project, and G&G excelled in this regard. Their team maintained open lines of communication with all stakeholders, especially district personnel and our Architects, ensuring that everyone was informed and aligned throughout the entire collaborative process from schematic plans to close-out documents. Their proactive approach to forecasting issues, providing alternative solutions, and providing regular updates contributed significantly to the smooth progression of the projects saving Jasper ISD both time and money and creating a smooth educational environment as well. Renovating multiple campuses simultaneously while school is in session is a challenging endeavor – and G&G exceeded all expectations without compromise to the educational process or security of the staff and students. This was the first project that JISD has had the opportunity to work with G&G – I see now why G&G has the well-deserved reputation for effectively managing schedules, budgets, and scope that they do. They meticulously planned and executed each phase of the projects, consistently met deadlines, and stayed within budgetary constraints without compromising on quality. Their proactive management style and attention to detail were instrumental in achieving a successful outcome, especially given today's volatile pricing and shipping challenges.

The quality of work delivered by G&G is second to none. From the initial planning stages to the final touches, their commitment to excellence was evident in every aspect of their work. They adhered to the highest standards of craftsmanship and utilized top-notch materials, resulting in superior finished products that exceeded expectations. The G&G project team brought a wealth of knowledge and expertise to every project they undertook. Their team of skilled professionals was well-versed in the latest construction techniques and best practices, which allowed them to overcome and assist the architect in overcoming challenges effectively and delivered exceptional results.

Colin and his team also have a deep understanding of personnel management, ensuring that the right people are in the right roles to maximize efficiency and productivity. Their cohesive team approach fosters collaboration and synergy, creating a positive working environment that benefits everyone involved.

Finally, G&G showed its stellar reputation for punch list management, close-out procedures, and warranty services. They were timely, thorough, and meticulous in addressing any outstanding issues, ensuring that all aspects of the project were completed to the highest standards. Their commitment to customer satisfaction extended beyond project completion, as they stand behind their work and provide ongoing support as needed.

I wholeheartedly endorse G&G Enterprises Construction Corp for any construction projects you may have. Their outstanding performance, attention to detail, and dedication to excellence made them an invaluable partner in achieving our project goals – I am confident they will do the same for you.

Please feel free to contact me if you require any further information.

Sincerely,
